Review of Commission's Price
Cap Rules

Docket No. RM2013-2

NOTICE OF CORRECTIONS TO A FEDERAL REGISTER DOCUMENT

(Issued November 6, 2013)

On July 23, 2013, the Commission issued Order No. 1786 adopting final rules relating to the Commission's price cap rules.¹ The Commission directed that the Order be published in the *Federal Register*. *Id.* at 34. Order No. 1786 was published in the *Federal Register* on August 26, 2013.²

A clerical error occurred during preparation of Order No. 1786 for publication in the *Federal Register*. This resulted in discrepancies between several sections of the rules as adopted in Order No. 1786 and those sections as published in the *Federal Register*.

The sections affected and the related corrections are identified below. The Commission is directing the Secretary to transmit these corrections to the Office of the *Federal Register* so revisions can be made to the sections as published in the *Federal*

¹ Order Adopting Final Rules for Determining and Applying the Maximum Amount of Rate Adjustments, July 23, 2013 (Order No. 1786).

² 78 Fed. Reg. 52694 (August 26, 2013).

Register and to title 39 of the Code of Federal Regulations. The effective date of the corrections is September 25, 2013.

Section 3010.11(b)(2), (d), and (k). In the document published in the *Federal Register*, §§ 3010.11(b)(2), 3010.11(d), and 3010.11(k) refer to “limitations.” The correct reference in each of these sections, as adopted in Order 1786, is to “limitation.”

Section 3010.23(d). In the document published in the *Federal Register*, the third sentence of § 3010.23(d) reads: “Adjustments shall be based on known mail characteristics or historic volume data, as opposed to forecasts of mailer behavior.” A qualifying phrase appears at the beginning of this sentence as adopted in Order No. 1786. The sentence as adopted also refers to “historical” volume data. Therefore, the correct wording of this sentence is: “Whenever possible, adjustments shall be based on known mail characteristics or historical volume data, as opposed to forecasts of mailer behavior.”

Section 3010.28 heading and related entry in table of contents. As published in the *Federal Register*, the heading for § 3010.28 in both the table of contents and in the place it appears in the text omits “Type 1-B.” As adopted, Order No. 1786 includes the reference to “Type 1-B.” Therefore, the correct heading for § 3010.28 for both the table of contents and in the text where this section appears is: “Maximum size of Type 1-B rate adjustments.”

Section 3010.42. As published in the *Federal Register*, the second sentence in § 3010.42(f) appears with a colon after the phrase “analytical principles” and five numbered paragraphs follow. The second sentence as adopted in Order No. 1786 ended with a period after the phrase “analytical principles.” In Order No. 1786 as adopted, the five numbered paragraphs that appear in the second sentence in the *Federal Register* version were associated with the introductory text of a third sentence in this section. The introductory text of the third sentence does not appear in the *Federal Register* version. Consistent with § 3010.42(f) as adopted in Order No. 1786, the second and third sentences read as follows, with an ellipsis representing five numbered paragraphs associated with the third sentence: “The projection of change in

net financial position as a result of the agreement shall be based on accepted analytical principles. The projection of change in net financial position as a result of the agreement shall include for each year of the agreement:” The first sentence in § 3010.42(f) is not affected by the preparation error.

In § 3010.42(f)(5) — one of the paragraphs represented by the ellipsis — the *Federal Register* version reflects the corrected subparagraph designations for § 3010.42(f)(5)(i) and (ii). Order No. 1786 identifies these as § 3010.42(f)(5)(A) and (B).

By the Commission.
